(i)

It is the fact that *both the men* originates in spec-VP that enables it to receive its AGENT theta -role by merging with the V-bar *watching him* before it raises to spec-IP for reasons of **greed** ;i.e. "to check the strong nominative- case head -feature which it carries."(171)

As regards sentence (1)(ii) of the exercise, the **chain uniformity principle** prevents its derivation from a similar structure to that in (4), as shown in (5).
